The AF650 Air Scrubber is a portable filtration system that removes airborne particles including mold, pet dander, dust, pollen, drywall dust, and other miscellaneous debris as small as 0.3 microns.

The AF650 utilizes up to 3 stages of filtration including a pre-filter, optional 2nd stage, and a HEPA filter. The AF650 will create cleaner air in any environment. The pre-filter and second stage filter capture larger particles and the HEPA filter captures smaller particles.
